

Plan. Track. Report. On Mac and Windows.

In a world full of project challenges, FastTrack Schedule 2026 gives you the tools to plan, track, and report your projects with ease — powerful enough for complex, multi-phase initiatives, intuitive enough to master in minutes, not days. The same professional experience on Mac, Windows, or both, without the cost and complexity of enterprise tools.

Everything you need to deliver on time and on budget

Gantt Charts

A clear visual timeline of tasks, milestones, and dependencies — drag, link, and adjust with a click.

Resources

Assign team members, balance workloads, and catch overallocation before it derails your schedule.

Budgets

Track costs and compare planned vs. actual to keep every project on budget.

One-Click Reports

Professional, customizable reports and built-in PDF export — ready to share with stakeholders.

Smart Filters

Highlight and dynamic filters focus instantly on the tasks and resources that matter most.

Color Calendars

Flag holidays, deadlines, and key dates; import .ics calendar files directly.

Built for the way you actually work

- › **Easy to learn** — a clean, modern interface puts every tool within reach. No certification required.
- › **Three views, one project** — Schedule, Resource, and Calendar views for a complete picture.
- › **Effort-driven scheduling** — add or remove resources and durations adjust automatically.
- › **Critical Path** — track the tasks that drive your end date, with automatic color changes.
- › **50+ bar & milestone styles** — plus new gradients and components for polished schedules.
- › **On-screen zoom & Print-to-One-Page** — present any part of your plan beautifully.

One product. Two platforms. Perfect fidelity.

FastTrack Schedule 2026 is engineered natively for **both** macOS and Windows — not a port, not a compromise. Build a schedule on a Mac, hand it to a Windows colleague, and it opens with every bar, style, resource, and calendar intact. Improved cross-platform file compatibility means your team collaborates freely, whatever's on their desk.

64-bit Universal — Apple M1-M5 + Intel

Windows 11 / 11 ARM64 / 10

Retina · High-DPI · HD color

What's New in FastTrack Schedule 2026

A major release focused on smarter scheduling, richer visuals, and broader compatibility.

SMARTER SCHEDULING

- › **Base Calendars** for shifts, holidays & time zones
- › **Assignment Contouring** — front/back-loaded, bell-curve, custom
- › **Work Usage Inspector** — time-phased overallocation view
- › **Fixed Duration** scheduling
- › Enhanced **Resource Information** form

RICHER VISUALS

- › New **bar styles & gradients**
- › **Image columns** — photos & icons in the spreadsheet
- › New Windows **Ribbon UI**, 4 themes + Dark Mode
- › **Getting Started** screen — recents & templates

COMPATIBILITY & OUTPUT

- › **Native MS Project import** (2019/2021) — **no Java required**
- › Built-in **PDF export** (Windows)
- › **iCloud**, Dark Mode & revision history (Mac)
- › Enhanced **Critical Path** & file fidelity

Connects with the tools you already use

Microsoft Project
Import **and** export MS Project XML — tasks, dependencies, resources, and calendars preserved.

Excel & CSV
Exchange data via Excel, CSV, and tab-delimited files for easy data interchange.

iCalendar
Import .ics files to bring holidays and key dates straight into your schedule.
